Computer Shiksha spreads its wings

Computer Shiksha started in May 2012 from a small school in Gurgaon. It has taken four long years to build the organization through continuous innovation and grit to take it to a level that it can safely expand without jeopardizing the quality of delivery of its programmes. Till the end of last year we were engaged in Gurgaon and Delhi only

With Model 2 Computer Shiksha has moved into two new states in December 2016 and will be adding another soon

1. Rajasthan – Karauli, Gudla Pahadi
2. U.P. – Amroha, Aligarh
3. Punjab - Moga (to start soon)

'Model 2', **enables a school** to deliver computer education on its own by using our in-house developed **Self Learning Videos** that act as trainers. For this we provide computers, their maintenance, Self Learning Videos, teacher's Manuals, Training, Online Watch on each class using CCTV with internet, exams and finally certificates. We are thus creating an ecosystem at the school to not only deliver computer literacy programs but also the IT infrastructure which could be leveraged for scores of other programmes.

The process works like this - once the due diligence of the partner organization are over we need to

- a) CS and School together arrange laptops / desktops and checked for the hardware and software
- b) School arranges for the LCD projector and the CC TV set up
- c) CS trains facilitators from the partner organization.

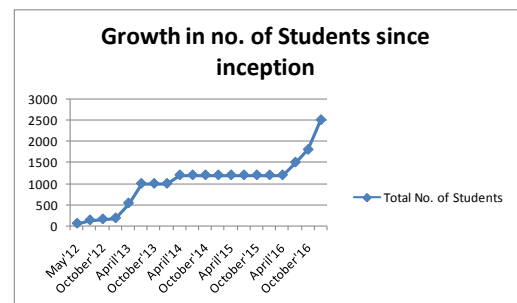

We are happy to share that we have achieved significant milestones in this journey and it seems we will succeed in reaching out to the large numbers that we dream of.

Total number of students enrolled exceeds 2500

As on date these the number of students enrolled :

Model 1	1035
Model 2	1529
	2564

Thus the number of students in the new model have exceeded the old one.

7	City convent school, chakkarpur, Gurgaon
8	City convent school, Nathupur, Gurgaon
9	Foundation world school, Gurgaon
10	Kartar Singh Sr. Secondary School, Moga Punjab

Computer Shiksha launches Internship Program

We are at 2500 students and the targeted number is a 400 times of this by Year 2020. We need more hands and heads working on this. For this Computer Shiksha has launched an Internship program and has just got into its fold four MBA students from Ansal University as interns to help achieve this BHAG (Big Hairy Audacious Goal)

We extend a hearty welcome to Vaishali Gandhi, Abhishek Dhanda, Sandeep Sharma and Jai Sriram Tiwri.

We are in **URGENT** need of desktops and laptops. Please spread the word amongst your friends. If the machines are not working please do not wait to repair them. We will do all of that. All we need is the machines (working / not working) and if it's a laptop..... don't forget the charger!
