On 5th May 2012 Computer Shiksha started its journey of bridging the digital divide with 15 laptops, 60 students of Nai Kiran, Ardee City Gurgaon. It has been five years… we have stopped counting the machines and now focusing only on the number of lives impacted and the geography in which we build access to computer literacy programmes for the most under served in the society.

Development of Self-Learning Videos in Regional languages

Now that we have successfully implemented learning through facilitated teaching with "Self Learning Videos" in Hindi we knew it is time we enhanced access to our programs to potential students in the non-Hindi speaking regions of India too. Thanks to the support of our Corporate donors we have set up a lab in Gurgaon to develop videos and learning content in 5 regional languages too. The identified languages are Bengali, Marathi, Oriya, Tamil & Telegu. The choice of the languages has been based on a report prepared and submitted by our intern Beaumont Papan from the Clinton School of Public Service, University of Arkansas(Reported in Volume 4.2 April 2016) in the summer of 2016.

New Office - Regional Language Video Development Lab; 202 Navkriti Arcade, Sector 55, Gurgaon
